

# Hygiene & Medical Program

## Hygiene Kits

Children in Christadelphian Sunday Schools in areas supported by Agape in Action receive hygiene kits as funds are available. These consist of a washbowl, face cloth, bag, bathing soap, clothes washing soap, toothbrush and toothpaste. These simple kits go a long way to preventing infectious disease and ensuring these children stay healthy. Studies have shown that improved hygiene and sanitation can reduce diarrheal disease (the 4<sup>th</sup> biggest killer in the world) by up to 50%.

## Medical Needs

Agape in Action supports medical needs for families in the sponsorship program. In addition, we ensure that children

have regular check-ups to identify and treat chronic and infectious conditions,

catch early signs of malnutrition and ensure childhood vaccinations are up to date. Some of these children will require follow-on treatment or medication. Emergency medical care and medicines are also provided when required. If you would like to know more about AinA hygiene kits or medical needs please contact us at [agapeinaction@rogers.com](mailto:agapeinaction@rogers.com) or (519) 837-9094

*"He went to him and bandaged his wounds, pouring on oil and wine. Then he put the man on his own donkey, took him to an inn and took **care** of him." Luke 10:34*
